The Great War-1448th Day

Soissons, where every yard which the Allies push forward further hampers the German lines of supply.

On the front where the Franco-American forces are pushing in just to the north of the Marne the enemy is carrying out sullen and stubborn

rearguard actions, but despite these the Allies continue their gains. On the whole, the concentrated forces of the Crown Prince have materially slowed down the Allied progress. There is no indication, however, that the enemy will be able to counter attack successfully.

Additional prisoners were taken in to-day's fighting. The Germans left numbers of machine gun nests in the path of the Allied progress and are using their artillery likewise in guarding the

Crown Prince Calls His Cousin Rupprecht's Bavarians to Rescue

WITH THE FRENCH ARMY IN FRANCE, July 22.—Frederick William, the German Imperial Crown Prince, has been obliged to call for help from his cousin, Crown Prince Rupprecht of Bavaria. German divisions from the army in the north have been hurried down to protect the western flank of the defeated army, which has been driven back over the Marne and ejected from Château Thierry by Franco-American troops.

The region immediately south of Soissons forms the key to the German position, and here the enemy has concentrated heavy forces for the purpose of holding back the advancing tide of the Allies. The latter, however, continue their progress, although the fighting is becoming heavier each hour.

They have taken a large number of

THE FOE'S LINES OF RETREAT

The solid black areas represent the Allied gains reported yesterday. According to reports from pristaken, the Germans have been ordered to fall back to a new line of defence before Fere-en-Tardenois, on line (1), evacuating the criss-cross area. In case of further retreat the enemy will probably fall back on the Vesle River, line (2), giving up the horizontally shaded territory. The Aisne River, on the north, line (3), would probably constitute his third line of defence.

The dash line indicates the battlefront at the beginning of the Allied counter drive. The names in rectangles are those of the French generals commanding sectors of the front.

Rhine Roads Congested By Trains of Wounded

GENEVA, July 22. - Railway traffic disorganized owing to the number of wounded arriving daily from the French front in hospital trains. Trains from Germany are arriving at the Swiss frontier many hours late. The German Empress returned to

the Germans heavily, as they must be launched without adequate preparation and on ground ill adapted for the

offensive warfare, and that is a very high compliment."

Allies Control All But One Rail Line In Marne "Pocket"

The Official Statements

FRENCH

PARIS (NIGHT), - During the course of the day the Germans attempted by powerful counter attacks to check our progress between the Marne and the Ourcq. The Franco-American troops resisted all these assaults and increased their gains, advancing beyond the heights east of La Croix and Grisolles, taking the village of Epieds and gaining ground northeast of Mont St. Perc.

Between the Marne and Rheims there was stiff fighting, which gained no result for the enemy. We maintained our lines in the Courton Wood and the Bois du Roi.

Further north British troops made an advance, capturing 200 prisoners and forty machine guns.

North of the Ourcq and on the Champagne front great artillery activity is reported, but there was no infantry action.

Aviation. The activity of our bombing machines was maintained at a high pitch on July 21. During day and night expeditions fifty tons of projectiles were dropped on enemy railroad communications, cantonments and bivouacs in the valley of the Vesle and the Ardre.

The stations at Laon, Fismes, Berry-au-Bac and Fere-en-Tardenois, crowded with troops and convoys, were the objects of very violent bom-

Germans limited their reaction to artillery bombardments north of the Ourcq and between the Marne and Rheims, notably in the region of the Courton and Roi woods.

Between the Ourcq and the Marne we have broken strong counter attacks.

Between the Germans in the region from Grisolles to Bezu-St. Germain. We have maintained our positions throughout the line.

WITH THE AMERICAN ARMY ON THE AISNE-MARNE FRONT, July 22.

The American Indians in France quickly adjusted themselves to the conditions of the country. They soon became just as cunning as in their native Western haunts. This is illustrated by an incident which occurred when the Germans were withdrawn across the Marne. Indian scouts with Americans were sent over the river to ascertain the German movements and other details.

At one crossing three Indians improvised a raft and chained it to the north side of the Marne. They hid the raft and then started on an exploring expedition. The Germans discovered the strange footprints on the river bank and came upon the raft. They awaited the lindians' return.

After reconnoitring the Indians approached their hidden raft cautiously, and, scenting trouble, made a hasty retreat.

The Germans realized that these
